

Capabilities Statement

CAGE: 8E9S6 **DUNS:** 010122164 **UEI:** CH5LBV1YB5D8

One workspace for every mission system.

HERE connects the applications, case systems and data sources your analysts and operators already use, so context moves with the mission, not by swivel chair. Built on Chromium with zero-trust security, HERE brings approved AI into the workflow and deploys air-gapped, on-premises or as SaaS.

Workforce Productivity

Supertabs	SuperSearch	Notification Center
App interoperability	AI Center	Integrations

Enterprise Security

Zero-Trust Architecture	Audit and Compliance	Data Loss Prevention (DLP)
App Access Controls	Single Sign-On	Executable Protection

About HERE

Established

2010

Awarded

U.S. Army SBIR
AI for Interoperability
(A254-011)

Technology trusted by

90% of global financial
institutions

Every capability, by area

14 Capability Areas

142 Features

Browsing & workspace

LAYOUTS, TABS & PERSONALIZATION

- Supertabs
- Show / Hide Tabs
- Save & Reopen Supertabs
- Open Supertabs with Context
- Window Snapping
- Collections
- Default Startup Collection
- Collections in the Dock
- New Tab Page
- Find in Page
- Custom Branding & Theming
- Bookmarks
- Global Menu
- Extension Bar
- Native Application Support

Search

ONE BOX, EVERY CONNECTED SYSTEM

- SuperSearch (Deep Search)
- Extensible Search Framework
- Pre-Built Search Connectors
- Actionable Search Results

Dock

ALWAYS-ON ACCESS TO WHAT MATTERS

- Dock
- Bookmarks in the Dock
- Search Shortcut
- One Click Favorites
- Content Directory
- Admin-Configurable Dock Defaults

Notifications

ONE INBOX FOR EVERY APP

- Notification Center
- Notification Triage Tools
- Rich, Actionable Notifications
- Per-App Notification Preferences
- Forward a Notification
- Notification Reminders
- Cross-Device Notification Sync
- Web-Based Notification Center
- Server-Side Notification Origination
- Notification Action Callbacks
- Notification Delivery APIs
- Notification Reporting & Analytics

Interoperability & integrations

APPS SHARE CONTEXT AUTOMATICALLY

- App Interoperability (Signals)
- FDC3 Intents & Context Channels
- Pre-Built App Integrations
- Content & Integrations Store
- Browser Extension Support
- OAuth 2.0 Provider

AI

EMBEDDED, GOVERNED & ALWAYS ON

- AI Center (Embedded AI Chat)
- Bring Your Own AI
- Always-On AI Access
- Multi-App Context Extraction
- AI Data Loss Prevention (AI DLP)
- SuperComplete
- AI-Triggered Workflows (FDC3 Intents)
- AI-Generated Notifications
- AI Can Create Supertabs
- AI Can Set Supertab Context
- No AI Data Retention

Mobile

THE WORKSPACE ON IPHONE

- HERE for Mobile (iPhone)
- Mobile Sign-In (HERE ID & Microsoft Entra)
- Mobile App Discovery & Launch
- Mobile Supertabs
- Bookmark Apps
- Notification Jump-to-App
- Mobile New Tab Page

Tablet (iPad)

THE WORKSPACE ON IPAD

- Rich Supertab Layouts
- Create & Save Supertabs
- Admin Supertab Publishing
- Featured Content New Tab Page
- iPhone Feature Parity

Chrome / Edge

HERE ZERO, NOTHING TO INSTALL

- Zero-Install Browser Access
- Per-Content Browser Availability Controls
- Unified Admin Management
- Custom Branding for Web Access
- Runs Alongside the Desktop App
- Side-Panel Components

HERE Studio

BUILD GOVERNED APPS IN PLAIN LANGUAGE

- Natural-Language App Generation
- Guardrailed, No-Prompt-Engineering Design
- Uses Your Approved AI
- Uses Your Own Data & APIs
- Deploys to Your Own Environment
- Automatic FDC3 Interoperability
- Automatic Notifications
- Automatic Theming & Branding
- Automatic Responsive, Supertab-Ready Layouts
- Automatic Accessibility Compliance
- Automatic PII Handling
- Safe, Vetted Code Libraries
- Agentic Task Kick-off from Generated Apps

Admin & security

CONTROL, COMPLIANCE & PROTECTION

- App & Integration Management
- Content Definitions
- App Access Permissions
- Dock Configuration
- Featured Content
- Supertab Publishing
- Role-Based Admin Permissions
- Bulk User Import
- Automated User Provisioning (SCIM)
- Single Sign-On
- Audit & Compliance Log
- Centralized Log Export
- Environment Availability Controls
- Zero-Trust Architecture
- Work App Isolation
- Enterprise Trust Controls
- Unregistered Content Mode
- ZTNA Integration
- Browser-Native Threat Detection
- Executable Protection
- Extension Protection
- Copy-Paste Protection
- Clipboard Protection
- Screen Capture Controls
- Screen Sharing Controls
- Print Controls
- Admin REST API Access
- API Rate Limiting & Throttling
- Encryption in Transit
- Encryption at Rest & Secrets Management
- Multi-Factor Authentication
- Built-In Identity Provider (HereID)
- Identity Provider Migration
- Windows Native Authentication
- Configurable Audit Log Retention
- Tamper-Proof Audit Logs

Analytics

USAGE INSIGHT, IN PLAIN ENGLISH

- Trend Analysis
- Engagement Analysis
- Retention Analysis
- Journey Exploration
- Custom Analytics Supertabs
- Flexible Date Ranges
- Plain-English Chart Explanations
- One-Click Exports

Deployment & infrastructure

CLOUD, ON-PREM OR AIR-GAPPED

- Flexible Deployment Options
- Dedicated Customer Environments
- High Availability & Disaster Recovery
- Zero-Downtime Upgrades
- Customer-Controlled Upgrade Timing
- Regional Data Residency Options
- Runtime & App Version Management

Compliance & trust

CERTIFICATIONS & VENDOR GOVERNANCE

- SOC 2 Certification
- Independant Accessibility Certification
- GDPR & CCPA Compliance
- Vendor & Sub-Processor Security Vetting
- Security Incident Response Program
- Continuous Vulnerability Scanning
- Independent & Client-Initiated Penetration Testing
- Software Supply-Chain Monitoring

The whole workspace, governed

Security-first browsers harden a handful of tabs. HERE governs the whole workspace, including browsing, search, notifications, interoperability, AI and administration, under one set of rules. Every capability listed here ships today and expands with each release.

Who We Serve

Trusted by 90% of global financial institutions, including Bank of America, Barclays, BNP Paribas, Goldman Sachs, JP Morgan and Wells Fargo. Now extending the same foundation into healthcare, government and defense, backed by In-Q-Tel and SBIR awards from the US Army and Navy.

Why HERE

15 years of connecting complex systems at the world's most regulated banks. HERE is the only enterprise browser built to be a governed workspace.
